PROFILE

Strong and highly structured administrative professional with over 8 years of experience in the international travel and aviation industry. I thrive as a strategic link between management and the team, ensuring that all behind-the-scenes operations run smoothly. I have extensive experience in executive support, crisis management, and optimizing complex systems under extreme pressure. When I moved to Denmark in 2022, I deliberately took on practical jobs to integrate into the culture as quickly as possible. Now, with my Danish language skills secured and my IT upskilling complete, I am ready to return to my professional home in the office. I combine a sharp "office brain" with a smiling, hands-on "doer" mindset.

CORE COMPETENCIES

- **Executive Support (EA/PA):** Calendar management, meeting coordination, minute-taking, presentation design, and cross-departmental stakeholder management.
- **Crisis Management & Problem Solving:** 8 years of experience keeping a cool head and resolving issues before they even reach the management's desk.
- **Modern IT & Systems:** Advanced user of Microsoft 365, C5, ALTEA CM, and Amadeus. Strong technical profile with completed upskilling in AI, Cloud, and Fullstack development.
- **Languages & Communication:** Fluent in professional English (C1), Danish (B2), Ukrainian, and Russian. Certified 'Diversity Agent'.

SELECTED PROJECTS & CRISIS MANAGEMENT

- **Crisis Leadership: PS752 Disaster in Iran (2020):** As part of the operational communication team, I managed the global information flow and internal coordination during the tragic downing of the Boeing 737. This required extreme discretion and the ability to function rationally under maximum pressure.
- **Complex Logistics (Weapon & Stretcher Transports):** Orchestrated highly regulated and time-critical transports, including flights for bedridden patients and security-cleared weapon shipments with zero room for error.
- **Event Management:** Co-organized unique large-scale events – from exclusive sightseeing flights over the Chernobyl zone to VIP behind-the-scenes excursions in aircraft hangars.
- **Training & Onboarding:** Responsible for training new employees and B2B partners in complex IT systems and building strong, self-driven teams.
